**Our guest speakers will cover what all kidney patients need to know on a new class of drugs: SGLT2 inhibitors, canagliflozin and dapagliflozin. Dr. Vivian Jan Tarkul will highlight the CREDENCE Trial and DAPA-CKD Trial. Joining her will be Nephrologist Patrick Cunningham Ahearn, MD, MAS, Stanford Health Care and clinical assistant professor at the Stanford University School of Medicine Division of Nephrology who will answer questions of concern for chronic kidney patients.**
